

X4 Pharmaceuticals to Participate at the Virtual B. Riley Oncology Institutional Investor Conference

January 19, 2021

BOSTON, Jan. 19, 2021 (GLOBE NEWSWIRE) -- [X4 Pharmaceuticals, Inc.](#) (Nasdaq: XFOR), a leader in the discovery and development of novel therapies targeting diseases resulting from dysfunction of the CXCR4 pathway, today announced that management will participate in a fireside chat at the B. Riley Oncology Institutional Investor Conference on Wednesday, January 20, 2021, at 11:00 am Eastern Time, and conduct one-on-one investor meetings around the event.

Details are as follows:

Conference: Virtual B. Riley Oncology Institutional Investor Conference

Date: Wednesday, January 20, 2021

Time: 11:00 AM ET

B. Riley is limiting the live audience to attendees who register in advance. An archived webcast of the event will be available on the investor section of the X4 Pharmaceuticals website at www.x4pharma.com, following the live fireside chat. The event will remain archived on the X4 Pharmaceuticals' website for approximately 90 days.

About X4 Pharmaceuticals

X4 Pharmaceuticals is a late-stage clinical biopharmaceutical company and a leader in the discovery and development of novel therapies for the treatment of diseases resulting from dysfunction of the CXCR4 pathway, with a focus on rare diseases and those with limited treatment options. The company's lead candidate, mavorixafor, is a first-in-class, small molecule antagonist of chemokine receptor CXCR4 being developed as a once-daily oral therapy. X4 believes that inhibition of the CXCR4 receptor creates the potential for mavorixafor to provide therapeutic benefit across a wide variety of diseases, including primary immunodeficiencies and certain types of cancer. The efficacy and safety of mavorixafor, dosed once daily, is currently being evaluated in a global Phase 3 clinical trial in patients with WHIM syndrome, and in two Phase 1b clinical trials – in combination with ibrutinib in patients with Waldenstrom macroglobulinemia, and as monotherapy in patients with severe congenital neutropenia (SCN). X4 is continuing to leverage its insights into CXCR4 biology at its corporate headquarters in Boston, Massachusetts and at its research facility in Vienna, Austria, and is developing additional product candidates.
